List of free-to-air channels at 28°E

This is a list of all of the [free-to-air](#) channels that are currently available via [satellite](#) from [SES Astra](#) satellites located at [28.2 °E](#) ([Astra 2A/2B/2D/1N](#)) and [Eutelsat's Eurobird 1](#) satellite at 28.5°E. These are the same group of satellites used for the [Sky pay-TV](#) platform and the [Freesat](#) free-to-air platform, therefore existing installations for these platforms would not require a realignment of the satellite dish or the purchase of any additional equipment. New capacity has been added so new channels can launch free to air via astra 1n.

List of channels on Zattoo

[Zattoo](#) is a [peer-to-peer Internet Protocol Television](#) system^[1] with offices located in [Ann Arbor, Michigan](#), and in [Zurich](#), Switzerland.^[2] It is available on computer, [iPhone](#), [iPod Touch](#) and [iPad](#) and runs on the [Windows XP](#), [Windows Vista](#), [Mac OS X](#) and [Linux operating systems](#). The basic channel [resolution](#) is 352×288 and 480×288 in [wide screen](#) with a [downstream](#) rate amounting to 500 [kBps](#). In high quality the resolution is 576×528 and the downstream rate of around 1.2 [MBps](#). In opposition to the standard channels, the high quality channel uses the [H.264 video codec](#).^[3]

For several years after its development Zattoo's number of channels has fluctuated. Some were removed due to disputes with [Warner Bros.](#) and [Universal Studios](#) about [copyright](#)-such as [MTV](#), [Viva](#), [Nick](#) and [Comedy Central](#).^{[4][5]} Zattoo currently has 157 different channels,^[6] excluding 12 only available in the pay-per-view "Zattoo Foreign Language Bundles".^[7] For most countries, except Denmark, a free registration is necessary to view channels.^[3] Since August 2008 channels are available in a high quality version. Switzerland was the first country to introduce high quality channels, with 20 available at first.^[8] Currently the 27 channels in high quality are available only in Switzerland, but it is expected that the high quality channels will become available in other countries such as Germany.^[9] To view the high quality channels a "HiQ membership" is required, subject to a charge.^[10]

Zattoo is currently available in six European countries (Denmark, France, Germany, Spain, Switzerland and the United Kingdom) and one country in America, the United States. Since 2007 Poland and Austria were expected to be included, but they have not yet been added.^[11] Zattoo cancelled their contracts with Norway in February 2009^[12] and also with Belgium a month later.^[13] Both cancellations were due to the small amount of

user subscriptions which prevented a viable service.^{[12][13]} Since 2008 the channels in Denmark, which were previously free, turned to pay-per-view because of the five fold increase in broadcasting fees.^{[14][15]} Users of Zattoo can only view channels in countries they are subscribed in. Only eight of the countries above connect to Zattoo and, if in another country, the software will prevent connection^[16] with the help of its [IP address](#) location capability.^[17]

List of television stations in the United Kingdom

This is a **list of television stations in the United Kingdom** available on digital terrestrial, satellite and cable systems. Some channels have a "timeshift" service, i.e. the same programming (and usually advertisements as well) broadcast one or two hours later to give viewers another chance to catch a favourite programme. These channels are shown underneath the original channel number. Channels shown in bright green are available without a subscription, and are therefore free-to-air. Those which are in a paler green can only be accessed via a viewing card.

[[edit](#)] Defunct channels

[[edit](#)] Unknown dates

- Telefís na Gaeltachta - this was a pirate [Irish language](#) service in the west of Ireland, and a fore-runner of the state-owned broadcaster, [TG4](#).
- Capital Television - this was another short-lived Dublin channel which only broadcast a caption for a week, along with a testcard at night another week. It, too, was a pirate TV channel.

[[edit](#)] 1980s

- Channel 3 - (Later known as Channel D) was a short-lived Dublin based television station broadcasting from July 1981 to October 1981. It was a [pirate TV channel](#).
- [Nova TV](#) - this was another Dublin pirate TV channel that was broadcast for a short time in the 1980s.

[\[edit\]](#) 1990s

- [Tara TV](#) - this was an Irish channel that was broadcast in the [UK](#) on [Sky Digital](#) from 1997 until RTÉ forced its closure in 2002. It was also broadcast in [Ireland](#) for much of this time.
- [RLO TV](#) - this was another legal/pirate television station (Satellite and UHF), broadcast in Limerick by [Radio Limerick One](#) in 1999 and 2000. An official license was granted for the satellite service in 1997 at which time digital broadcasts began making this the first digital television channel in Ireland beating RTÉ by years. During the UHF years while the station was not airing its own content they would broadcast a relay of UK [Channel 5](#).

[\[edit\]](#) 2000s

- [Waterford@8](#) - this was a sister local TV service of [WLR FM](#) in Waterford. It was available on cable in Waterford city and Dungarvan and on MMDS in east Waterford and south Kilkenny. The service launched in 2000, and ceased in 2005.
- [Sky News Ireland](#) - this was an Irish version of [Sky News](#), carried to Ireland on Sky Digital, and by most cable companies. It ceased broadcasting in November 2006 due to low audience figures.
- [Chorus Sports](#) - this was on Chorus Cable, which showed local sports, greyhound racing, and national motor racing events. This ceased broadcasting in January 2007.
- [Bubble Hits Ireland](#) - this was a 24 hour music channel targeting both the Ireland and the rest of Europe (European version). On February 13, 2009, Bubble Hits ceased broadcasting due to a downturn in advertising revenue.

[\[edit\]](#) 2010s

- [Buzz TV](#) - this was a 24 hour interactive television service it ceased operating in July 2010. Two years after its original launch.

List of HD channels in Ireland

List of channels on UPC Ireland

This is a list of the channels currently available on the [UPC Ireland](#) digital television services.

The availability of channels varies depending on the package chosen. Not all channels are available in all areas, however the numbering of each channel, where available, remains consistent. Note that in relation to Chorus, this list applies only to [cable](#) platforms - the original Chorus Digital line-up continues on [MMDS](#). Analogue platforms also have a number of different line-ups. High-definition channels are only available to customers with a Digital+ HD [set-top box](#).

The most recent channels to launch were True Movies 1 and Food Network on channels 328 and 508 on 6 September 2011.

Key
